State Ministry of Production, Supply and Regulation of Pharmaceuticals

Admiral (Prof.) Jayanath Colombage,  
Ministry of Foreign Affairs  
Republic Building,  
Sir Baron Jayathilake Mawatha,  
Colombo 01

**Maintenance of Medical Supplies supply chain of Sri Lanka**

The State ministry of Production, Supply and Regulation of Pharmaceuticals and its institutions are completely responsible for procuring, distribution and regulation of pharmaceuticals, consumables, and all kinds of medical supplies for all healthcare institutions in Sri Lanka.

The State ministry is utilizing the maximum production capacity of local production and has also initiated to utilize the Indian Credit Line to the maximum effect to purchase medical supplies for Sri Lanka.

There is a considerable amount of vital medical supplies such as orthopedic implants, anti-cancer drugs, reagents and consumables used at Blood banks, HLA testing, HIV-AIDS testing reagents and Laboratory reagents are imported from, USA, Europe and Australia. Due to the prevailing foreign reserve crisis it has been extremely difficult to maintain the supply chain of above mentioned extremely important medical supplies imported from Europe. ( the list is attached herewith )

We would be extremely grateful if you could assist State Ministry to coordinate with foreign missions and any other interested donors to maintain the medical supplies which are not manufactured in Sri Lanka and could not be imported using the Indian credit line.

Your kind consideration regarding this will be important to maintain the medical supplies supply chain in Sri Lanka.

Dr. R.M.S.K. Rathnayake  
Secretary  
State Ministry of Production, Supply and Regulation of Pharmaceuticals

**Pharmaceuticals**
